SUMMARY

Computer Science Honours graduate with hands-on experience in full-stack software development, data analytics, and business intelligence. Currently completing workplace training at Hulamin through the Gijima Data Science Internship Programme, contributing to the development of an enterprise Project Management System using C#, ASP.NET, Oracle SQL, DevExpress, Azure DevOps, and Power BI. Passionate about building data-driven solutions and continuously improving technical and problem-solving skills.

SKILLS

Programming Languages: Python, C#, Java, JavaScript, SQL

Web Development & Software Engineering: ASP.NET Core Web API, ASP.NET MVC, DevExpress MVC, REST API Development, HTML, CSS, Web Development

Data Analytics & Business Intelligence: Power BI, Pandas, Matplotlib, Data Cleaning, Data Analysis, Data Visualization, NLP Preprocessing

Databases & Cloud Technologies: Oracle SQL, Azure DevOps, Azure Pipelines

Tools & Platforms: Git, GitHub, Google Colab, Jupyter Notebook, Apify

Professional Skills: Problem Solving, Team Collaboration, Communication, Time Management, Documentation, Research Skills, Testing

PROJECTS | <https://github.com/LunganiGcabashe/>

Exploring the Accumulation of isiZulu Text Data from Facebook to Train Large Language Models | Honours project Apr 2025 – Nov 2025

- Conducted research on collecting and preprocessing isiZulu text data from public Facebook pages for NLP and LLM research.
- Used Apify to gather publicly available Facebook data.
- Applied text preprocessing techniques including text cleaning, language detection, sentence segmentation, and stopword removal.
- Structured and processed datasets using Python and Google Colab.
- Prepared NLP-ready datasets for low-resource African language technologies.

Nike Sales Analytics | Data Analysis

Mar 2026 -Apr 2026

- Cleaned and transformed retail sales data using Python and Pandas.
- Handled missing values and corrected inconsistent records to improve data quality.
- Performed feature engineering to support deeper business analysis.
- Analysed regional sales performance, seasonal profit trends, and product performance.
- Created visualizations using Matplotlib to communicate business insights.

Portfolio Website | Frontend Development

Apr 2025-Jun 2025

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Showcased technical skills, projects, and professional achievements.
- Implemented responsive layouts for desktop and mobile devices.

- Applied modern user interface and accessibility principles.
- Deployed the website using GitHub Pages.

University Student Assistance System | Final Year Project
Apr 2025-Jun 2025

- Collaborated in the development of a web-based student assistance system.
- Developed frontend functionality using HTML, CSS, and JavaScript.
- Integrated SQL database functionality for managing student information.
- Supported academic scheduling and communication processes.
- Served as team leader, coordinating development activities and team collaboration.
- Assisted with project planning, task allocation, and progress tracking.

EXPERIENCE

GIJIMA — INTERNSHIP PLACEMENT AT HULAMIN
Apr 2026 – present

- Worked within a team of four interns in an Agile development environment.
- Contributed to the design, development, testing, and deployment of an internal Project Management System.
- Designed and developed Oracle SQL database tables, relationships, queries, and stored procedures.
- Developed REST APIs using C# ASP.NET Core following Clean Architecture principles to support project management workflows.
- Developed frontend functionality using ASP.NET MVC and DevExpress components.
- Implemented unit and functional testing for APIs and controller logic.
- Assisted with Azure DevOps CI/CD pipeline configuration and deployment automation.
- Created Power BI dashboards to provide project status and progress insights.

EDUCATION

Institution: University of Zululand

- **Honours in Computer Science - Completed 73% | 2025**
- **BSc in Computer Science & Physics - Completed 65% | 2021 - 2024**

TRAINING

Gijima Holdings
Data Science Internship Programme | 2026

Completed a structured industry-focused internship program covering Data Science, Python, SQL, Power BI, Microsoft Azure, and professional development, earning Microsoft certifications. The program included a 3-month workplace experience placement at Hulamini (Pty) Ltd in Pietermaritzburg, where theoretical knowledge was applied in a real-industry environment working on live software development projects.

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900)
- Microsoft Azure Data Fundamentals (DP-900)
- Microsoft Power BI Data Analyst Associate (PL-300)
